### **Laser Products Industries Unveils Remodeled Training Academy**

Laser Products Industries (LPI), which manufactures laser measuring equipment for the countertop, cabinet, and woodworking industries, officially cut the ribbon on their remodeled training academy. The 2,000 square foot space has six separate training stations and offers global video and web capabilities. This global connectivity is of importance to LPI, as they have sold over 5,000 systems in 35 countries to more than 2,600 companies.

“Laser Products Industries has continually been recognized as a leader in their industry,” praised Mayor John Noak, referencing LPI’s recent Association of Woodworking & Furnishings Suppliers 2017 Visionary Award. “We’re extremely proud that they are headquartered in Romeoville and hope this improved academy will continue to expand their market share.”

2017 also saw Laser Products Industries named the “#3 Fastest Growing Private Manufacturer in Illinois” by Inc. Magazine and earned them a spot on the prestigious Inc. 5000 list.

Laser Products is located at 1344 Enterprise Drive in Romeoville. For more information on their business, visit their website at <http://laserproductsus.com/>
