**Tramco Pump Comes to Romeoville**

Tramco Pump Company, established in 1924, specializes in manufacturing, distributing, and repairing pumps and related equipment for the industrial, commercial, and residential markets. Now, all that specialization is headquartered in Romeoville. The mayor and other representatives from the village and chamber of commerce were on hand for the official ribbon cutting of the building, located just north of White Fence Farm at 1428 Sherman Road.

“We’re very pleased to welcome a third generation family owner business like Tramco Pump to Romeoville,” said Mayor John Noak.

For residential customers, Tramco offers sump and sewage pumps, as well as battery backup power systems, lift station/control units, and water pressure booster systems. For more information, visit them online at [TramcoPump.com](http://TramcoPump.com) or give them a call at 312-243-5800.
