Introduction to Movie Making Animation

Wednesdays, February 9-March 2
4:30pm-6:00pm

Why should older kids have all the movie making fun? In this movie making class for younger minds, students will make their very own animated movie featuring SpongeBob or Batman. Students will work in teams to create scripts, build their own scenes, and film their movies. Computer Explorers will focus on Stop-Motion animation techniques, storyboarding and creating special effects. Just like the older kids, we will have a private screening for family and friends on the last day of class, and students will receive a copy of the class movies on a CD.

Age:	6 - 9
Fee:	\$70/R - \$105/NR
