Romeoville Approves Metra Lot Expansion

Parking at the Romeoville Metra Station has been in high demand since its opening in February. At the September 5th meeting, the Village Board took action to meet that demand and approved a contract to begin the construction of Phase 2 of the parking lot. The new parking lot will add 160 spaces with room for future growth. Once completed, commuters will notice a new layout to allow for more permit parking.

"We are fortunate to have a great partnership with Metra that allows us to complete this project," said Mayor John Noak.

Construction will begin this Fall. For information visit the Village of Romeoville website at romeoville.org.
