Romeoville Offers Assistance in Planting Parkway Trees

Each year, the village offers a Parkway Tree Replacement Program. The program is part of the village's effort to beautify the community. The village will contribute \$75.00 of the cost of the tree. The program is intended to assist residents who wish to have trees planted in the parkway in front of their homes where the trees do not currently exist or are in poor condition.

Participation in the program is voluntary and applies to residential areas only. The program is offered in the Fall and the Spring. The deadline for orders for a Fall planting is November 1st. Residents interested in this program need to fill out an application at romeoville.org.
