### Romeoville To Build New Aquatic Center

The Romeoville Village Board reviewed a new 20,000 square foot aquatic center to be located between the existing Romeoville Athletic & Event Center and RC Hill. The project is expected to include 12,000 square feet of aquatic space as well as a large outdoor splash pad.

"A large scale splash pad and indoor pool are amenities not currently offered in Romeoville," stated Mayor John Noak. "The indoor element of the pool would allow us the flexibility to use it in the winter months as well."

Indoor features on the plan include a water slide, interactive play area, wellness lap area, and a zero depth entry to the pool. The splash pad would feature a shelter, picnic tables, and shade sails. When combined, these amenities would provide year around fun for Romeoville residents. This will be the first indoor pool and the third and largest splash pad for the Village.
