Concept Plan Presented for Freddy's Steakburgers in Romeoville

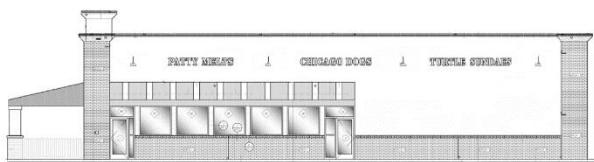

A concept plan for Freddy's Frozen Custard & Steakburgers was presented at tonight's Village Board Meeting. The proposed building would be 3,150 square feet with 39 parking spaces and a drive thru lane. The restaurant would be constructed on the former site of the Sam's Club gas station on Weber Road, presently between Romeoville Smiles Dentistry and Lenny's \$3 Car Wash. If there are no delays, Freddy's could begin construction in spring 2022 for a fall 2022 opening.

"We are pleased to welcome Freddy's to the continuing development that is springing up around the community," said Mayor Noak.

Other upcoming developments in town include Scene75, which is planning to open early 2022, and Starbucks on Route 53, which will begin construction soon. A number of other projects will begin construction in the spring as well: Mercedes-Benz, Belle Tire, and Burger King. Additional development announcements are anticipated for both corridors over the next few months.
