Pool Credit Request Form

The Village of Romeoville allows a credit once per calendar year for a swimming pool that is fully emptied and refilled. The sewer portion of your bill will be adjusted for the amount of water consumed to fill the pool. Once the completed form is received, the Finance Department will calculate an adjustment based on the water usage during the month the pool was filled minus the average water use during the previous six months. The adjustment will not exceed the maximum gallons to fill the pool. The customer's account must be paid in full to receive the adjustment. A visit to the property may be necessary to verify the pool had been filled. The Village will verify all proper pool permits and inspections have been completed prior to issuing any credit. Complete this form within sixty days of filling a pool to receive any adjustment.

Pool Information		
Date Pool Filled
